

Product Information: Geartech EP 85W-140

Description

Geartech EP 85W-140 is a high quality gear and drive axle lubricant, formulated on high quality virgin, mineral base oils incorporating a tailored additive system. The high level of extreme pressure additive delivers excellent wear protection, ensuring long component life.

The product also exhibits excellent foam control, resistance to oxidation and good thermal stability as well as protection from rust and corrosion. Good low temperature properties offer protection from start-up.

Applications

Geartech EP 85W/140 primarily intended for use in heavily loaded axle drives and some manual transmissions fitted to automotive, agricultural, construction and commercial vehicles, when the original equipment manufacturer recommends a lubricant of this quality, performance level and viscosity.

Performance Features

- Excellent anti-wear characteristics
- Protection from rust and corrosion
- Long component life
- Excellent foam control
- Resistant to oxidation
- Thermally stable
- Seal material compatibility

Performance Levels

- API GL-5
- MIL-L-2105D
- ZF TE-ML 05A, 12E, 16D, 21A

Typical Data

Characteristic	Unit	Result
Density @ 15.6°C	kg/l	0.898
Kinematic Viscosity @ 40°C	cSt	338
Kinematic Viscosity @ 100°C	cSt	25.9
Viscosity Index		100
Flashpoint (Closed)	°C	210
Pour Point	°C	-17
