

Product Information: Clip Ease Plus

Description

Clip Ease Plus is a scaffold assembly and anti-seize fluid, which is manufactured from specialised base fluids, which offer improved cold temperature fluidity for ease of application and are fortified with improved anti-seize agents. Use of this product will facilitate easy and fast removal of scaffolding even when it has been erected for long periods of time. The product is low in odour and extremely operator friendly.

Applications

Clip Ease Plus is suitable for the lubrication of all scaffolding parts.

Performance Features

Improved Formulation offers maximum penetration and anti-seize performance

Low odour

Cost effective

Lubricates and penetrates threads easily

Prevents sticking

Operator friendly

Improved fluidity in extremely cold temperatures for easy application

Typical Data

Characteristic	Unit	Result
Density @ 15.6°C	kg/l	0.860
Kinematic Viscosity @ 40°C	cSt	8.0
Viscosity Index		105
Flashpoint (Closed)	°C	178
Pour Point	°C	-37
