Product Information: Cedol Wood Preserver

Description
Cedol wood preserver is a very high-quality Cedar cladding, decking and fencing oil which penetrates deeply into timber surfaces, providing protection to timber against extreme weather conditions and UV fading. The product is manufactured using highly pure, crystal clear base stocks, which are odourless, non-toxic and environmentally acceptable. The product penetrates deep into timber to provide a clear ‘wet look’ finish, offering protection against dirt, algae and fungi, prolonging timber life by eliminating cracking, splitting and discolouring.

Applications
Cedol wood preserver is suitable for use on timbers such as Cedar; Pine and Larch amongst others. The product can be applied either by brush, spraying or dipping and is generally a one coat treatment, depending on the age and condition of the timber to be treated. Re-application is recommended every 3-4 years.

Performance Features
- Non-Toxic Formulation
- Environmental acceptability
- Odourless
- Excellent UV protection
- Inhibits algae and fungi growth
- Clear product promotes natural colour
- Dirt resistant
- Easy to apply
- Eliminates cracking and splitting
- Prolongs timber life
