

Product Information: 4 Stroke SAE 30 Engine Oil

Description

4 Stroke SAE 30 engine oil is a low ash lubricant for use in horticultural and garden machinery powered by petrol and diesel engines where SAE 30 monograde oils are recommended. The lubricant is manufactured using high quality, virgin, mineral base oils, with the inclusion of performance additives to control soot, varnish and sludge and protect against component wear, corrosion and rust. The product offers excellent oxidative and thermal stability.

Applications

For use in older and light duty petrol and diesel engines, commonly used on horticultural; green keeping; garden machinery and generators, where a lubricant of this quality and viscosity is recommended by the original equipment manufacturer.

Performance Features

- Effective control of soot, sludge and varnish
- Protection against rust and corrosion
- Thermally stable
- Resistant to oxidation
- Excellent anti-wear properties

Performance Levels

API SF/CC

Typical Data

Characteristic	Unit	Result
Density @ 15.6°C	kg/l	0.876
Kinematic Viscosity @ 40°C	cSt	91.1
Kinematic Viscosity @ 100°C	cSt	11.1
Viscosity Index		108
Flashpoint (Closed)	°C	210
Pour Point	°C	-34
