Product Information: Momentum C5 V 0W-20

Description

Momentum C5 V 0W-20 is a high quality, fully synthetic motor oil featuring emissions compatible technology, which enables exhaust after-treatment systems to remain clean and maintain engine performance. The high-quality synthetic formulation promotes exceptional long term anti-wear performance and oxidation stability, as well as delivering excellent high and low temperature performance. The product exhibits outstanding control over soot, sludge and deposits delivering very high standards of engine cleanliness. The product offers excellent resistance to evaporation loss and displays high shear stability. The product is dyed green for ease of identification in workshop situations and contains a unique tracer.

Applications

Momentum C5 V 0W-20 has been primarily formulated for use in high-performance petrol and diesel engines of Audi, Volkswagen and Porsche, but is also suitable for use in other vehicles where the original equipment manufacturer recommends a lubricant of this quality, viscosity and performance level.

Performance Features

Mid-SAPS emission compatible technology
Protects against engine wear
Control over sludge and piston deposits
Excellent thermal and oxidation stability
Low evaporation formulation
Exceptional cold flow characteristics
Dyed green for easy identification
Contains a unique tracer

Performance Levels

ACEA C5
API SN
VW 508.00/509.00
Porsche C20

Typical Data

Characteristic	Unit	Result	Method
Density @ 15.6°C	kg/l	0.832	ASTM D4052
Kinematic Viscosity @ 40°C	cSt	39.1	ASTM D445
Kinematic Viscosity @ 100°C	cSt	7.77	ASTM D445
Viscosity Index		174	ASTM D2270
Flashpoint (Open)	°C	228	ASTM D92
Pour Point	°C	-42	ASTM D97
CCS @ -35°C	mPa•s	5912	ASTM D5293
Total Base Number	mg KOH/g	8.3	ASTM D2896
