Printing date 06.09.2022

Revision: 06.09.2022

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### · 1.1 Product identifier

- · Trade name: <u>LHM Fluid +</u>
- · Registration number Mixture
- $\cdot$  1.2 Relevant identified uses of the substance or mixture and uses advised against
- · Product category PC17 Hydraulic fluids
- · Application of the substance / the mixture Hydraulic fluid
- Uses advised against Processes involving extreme heat use advised against.

#### $\cdot$ 1.3 Details of the supplier of the safety data sheet

· Manufacturer/Supplier:

```
Smith & Allan
Valley Street North
Darlington
County Durham
DL1 1QE
Tel: 01325 462228
Fax: 01325 368122
e-mail: enquiries@smithandallan.com
```

#### · Further information obtainable from: Product safety department.

- · 1.4 Emergency telephone number:
- UK National Poisons Information Service. E-mail: npis.birmingham@nhs.net; Tel: +44 (0)344 892 0111

# **SECTION 2: Hazards identification**

#### $\cdot$ 2.1 Classification of the substance or mixture

· Classification according to Regulation (EC) No 1272/2008

Asp. Tox. 1 H304 May be fatal if swallowed and enters airways.

#### · 2.2 Label elements

#### · Labelling according to Regulation (EC) No 1272/2008

- The product is classified and labelled according to the GB CLP regulation.
- · Hazard pictograms GHS08
- · Signal word Danger
- · Hazard statements
- H304 May be fatal if swallowed and enters airways.
- · Precautionary statements

P270 Do not eat, drink or smoke when using this product.

- P301+P310 IF SWALLOWED: Immediately call a POISON CENTER/ doctor.
- P331 Do NOT induce vomiting.
- P401 Store in accordance with local/regional/national/international regulations.

P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

· 2.3 Other hazards

- · Results of PBT and vPvB assessment
- · **PBT:** Not applicable.
- **vPvB:** Not applicable.

#### **SECTION 3: Composition/information on ingredients**

- · 3.1 Chemical characterisation: Substances
- · Identification number(s)
- · 3.2 Chemical characterisation: Mixtures
- **Description:** A blend of highly refined mineral oils with multifunctional additives.

(Contd. on page 2)

Printing date 06.09.2022

Revision: 06.09.2022

#### Trade name: LHM Fluid +

|                      | ((   | Contd. of page 1) |
|----------------------|--|-------------------|
| · Dangerous compon   | ents:  |                   |
|                      | Highly refined low-viscosity mineral oil   | >10-≤25%          |
|                      | 🗞 Asp. Tox. 1, H304  | 1                 |
| CAS: 91-20-3         | naphthalene  | ≤2.5%             |
| EINECS: 202-049-5    | Carc. 2, H351; Aquatic Acute 1, H400; Aquatic Chronic 1, H410;<br>Acute Tox. 4, H302 | -                 |
| · Additional informa | tion. For the wording of the listed hazard phrases refer to section 16               |                   |

Additional information: For the wording of the listed hazard phrases refer to section 16.

# **SECTION 4: First aid measures**

- · 4.1 Description of first aid measures
- · General information: Immediately remove any clothing soiled by the product.
- · After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact:

Immediately wash with water and soap and rinse thoroughly.

If skin irritation continues, consult a doctor.

· After eve contact:

Check for and remove any contact lenses.

Rinse opened eye for several minutes under running water. Then consult a doctor.

- · After swallowing:
- DON'T DELAY!

Wash mouth out with water

Do not induce vomiting; call for medical help immediately.

If vomiting occurs spontaneously, keep head below hips to prevent aspiration.

· Information for doctor:

High pressure injection injuries of mineral and synthetic oils through the skin require prompt surgical intervention and possibly steroid therapy, to minimise tissue damage and loss of function. Because entry wounds are small and do not reflect the seriousness of the underlying damage, surgical exploration to determine the extent of involvement may be necessary. Local anaesthetics or hot soaks should be avoided because they can contribute to swelling, vasospasm and ischaemia. Prompt surgical decompression, debridement and evacuation of foreign material should be performed under general anaesthetics, and wide exploration is essential.

Refer to section 11.

- · 4.2 Most important symptoms and effects, both acute and delayed
- No further relevant information available.
- · 4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available.

#### **SECTION 5: Firefighting measures**

- · 5.1 Extinguishing media
- · Suitable extinguishing agents:

CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

- · For safety reasons unsuitable extinguishing agents: Water with full jet
- 5.2 Special hazards arising from the substance or mixture No further relevant information available.
- · 5.3 Advice for firefighters
- · Protective equipment:

Wear self-contained respiratory protective device.

Wear fully protective suit.

Do not inhale explosion gases or combustion gases.

#### **SECTION 6: Accidental release measures**

· 6.1 Personal precautions, protective equipment and emergency procedures Particular danger of slipping on leaked/spilled product.

(Contd. on page 3)

GB

Printing date 06.09.2022

Revision: 06.09.2022

#### Trade name: LHM Fluid +

Ensure adequate ventilation

- · 6.2 Environmental precautions:
- Do not allow to penetrate the ground/soil.
- Do not allow to enter sewers/ surface or ground water.
- 6.3 Methods and material for containment and cleaning up:
- Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

Send for recovery or disposal in suitable receptacles.

 $\cdot$  6.4 Reference to other sections No dangerous substances are released.

# **SECTION 7: Handling and storage**

- · 7.1 Precautions for safe handling
- Prevent formation of aerosols.
- Ensure good ventilation/exhaustion at the workplace.
- Information about fire and explosion protection: No special measures required.
- · 7.2 Conditions for safe storage, including any incompatibilities
- · Storage:
- Requirements to be met by storerooms and receptacles: Prevent any seepage into the ground.
- Information about storage in one common storage facility: Store away from oxidising agents.
- $\cdot$  Further information about storage conditions:
- Store in cool, dry conditions in well sealed receptacles.

Store in a bunded area.

 $\cdot$  7.3 Specific end use(s) No further relevant information available.

# **SECTION 8: Exposure controls/personal protection**

- · 8.1 Control parameters
- Additional information about design of technical facilities: No further data; see item 7.
- Ingredients with limit values that require monitoring at the workplace:
- The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.
- Additional information: The lists valid during the making were used as basis.
- · 8.2 Exposure controls
- · Personal protective equipment:

#### · General protective and hygienic measures:

- Wash hands before breaks and at the end of work.
- Do not carry product impregnated cleaning cloths in trouser pockets.

Avoid close or long term contact with the skin.

Do not eat, drink, smoke or sniff while working.

Avoid contact with the eyes.

Do not inhale gases / fumes / aerosols.

· Respiratory protection:

Not necessary if room is well-ventilated.

Use suitable respiratory protective device in case of insufficient ventilation.

· Protection of hands:

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation • Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

· Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

· Eye protection:

#### Safety glasses

Goggles recommended during refilling

(Contd. on page 4)

(Contd. of page 2)

Printing date 06.09.2022

Revision: 06.09.2022

#### Trade name: LHM Fluid +

### · Body protection:

Oil resistant protective clothing

Body protection must be chosen depending on product properties, activity and possible exposure.

| SECTION 9: Physical and chemical properties                 |   |  |  |  |
|---|---|--|--|--|
| · 9.1 Information on basic physical and chemical properties |   |  |  |  |
| General Information   |   |  |  |  |
| · Appearance:<br>Form:                                      | Liquid  |  |  |  |
| Form:<br>Colour:  | Liquid<br>Green                               |  |  |  |
| · Odour:  | Mineral-oil-like                              |  |  |  |
| · Odour threshold:  | Not determined.                               |  |  |  |
| · pH-value:   | Not determined.                               |  |  |  |
| · Change in condition                                       |   |  |  |  |
| Melting point/freezing point:                               | Undetermined.                                 |  |  |  |
| Initial boiling point and boiling range                     | : Undetermined.                               |  |  |  |
| · Flash point:  | >100 °C                                       |  |  |  |
| · Flammability (solid, gas):                                | Not applicable.                               |  |  |  |
| · Ignition temperature:                                     | >250 °C                                       |  |  |  |
| · Decomposition temperature:                                | Not determined.                               |  |  |  |
| · Auto-ignition temperature:                                | Product is not self-igniting.                 |  |  |  |
| · Explosive properties:                                     | Product does not present an explosion hazard. |  |  |  |
| · Explosion limits:   |   |  |  |  |
| Lower:  | Not determined.                               |  |  |  |
| Upper:  | Not determined.                               |  |  |  |
| · Vapour pressure:  | Not determined.                               |  |  |  |
| · Density at 20 °C:   | 0.9 g/cm <sup>3</sup>                         |  |  |  |
| Relative density  | Not determined.                               |  |  |  |
| · Vapour density  | Not determined.                               |  |  |  |
| · Evaporation rate  | Not determined.                               |  |  |  |
| · Solubility in / Miscibility with                          |   |  |  |  |
| water:  | Not miscible or difficult to mix.             |  |  |  |
| · Partition coefficient: n-octanol/water:                   | Not determined.                               |  |  |  |
| · Viscosity:  |   |  |  |  |
| Dynamic:  | Not determined.                               |  |  |  |
| Kinematic:  | Not determined.                               |  |  |  |
| • 9.2 Other information                                     | No further relevant information available.    |  |  |  |

# **SECTION 10: Stability and <u>reactivity</u>**

• 10.1 Reactivity No further relevant information available.

· 10.2 Chemical stability

· Thermal decomposition / conditions to be avoided:

- No decomposition if used and stored according to specifications.
- $\cdot$  10.3 Possibility of hazardous reactions No dangerous reactions known.
- 10.4 Conditions to avoid No further relevant information available.
- $\cdot$  10.5 Incompatible materials: Strong oxidising agents.

#### Trade name: LHM Fluid +

• 10.6 Hazardous decomposition products: Carbon monoxide and carbon dioxide

(Contd. of page 4)

# **SECTION 11: Toxicological information**

- · 11.1 Information on toxicological effects
- Acute toxicity Based on available data, the classification criteria are not met.
- · Primary irritant effect:
- $\cdot$  Skin corrosion/irritation Based on available data, the classification criteria are not met.
- $\cdot$  Serious eye damage/irritation Based on available data, the classification criteria are not met.
- $\cdot$  Respiratory or skin sensitisation Based on available data, the classification criteria are not met.
- $\cdot$  Additional toxicological information:

Small amounts of liquid aspirated into the respiratory system during ingestion or from vomiting may cause brochopneumonia or pulmonary oedema.

- · CMR effects (carcinogenity, mutagenicity and toxicity for reproduction)
- · Germ cell mutagenicity Based on available data, the classification criteria are not met.
- · Carcinogenicity Based on available data, the classification criteria are not met.
- Reproductive toxicity Based on available data, the classification criteria are not met.
- **STOT-single exposure** Based on available data, the classification criteria are not met.
- STOT-repeated exposure Based on available data, the classification criteria are not met.
- · Aspiration hazard
- May be fatal if swallowed and enters airways.

# **SECTION 12: Ecological information**

- · 12.1 Toxicity
- Aquatic toxicity: No further relevant information available.
- 12.2 Persistence and degradability Inherently biodegradable
- 12.3 Bioaccumulative potential Product is not expected to bioaccumulate.
- 12.4 Mobility in soil No further relevant information available.
- · Additional ecological information:
- · General notes:

Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water

- Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.
- · 12.5 Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- **vPvB:** Not applicable.
- · 12.6 Other adverse effects No further relevant information available.

# **SECTION 13: Disposal considerations**

- · 13.1 Waste treatment methods
- · Recommendation
- Recommended Hierarchy of Controls:
- Minimise waste;
- Reuse if not contaminated;
- Recycle, if possible; or
- Safe disposal (if all else fails).

Must not be disposed together with household garbage. Do not allow product to reach sewage system. Contact waste processors for recycling information.

Delivery of waste oil to offically authorised collectors only.

Used, degraded or contaminated product may be classified as hazardous waste. Anyone classifying hazardous waste and determining its fate must be qualified in accordance with state and international legislation.

#### · Uncleaned packaging:

· Recommendation:

Disposal must be made according to official regulations.

(Contd. on page 6)

Printing date 06.09.2022

| · 14.6 Special precautions for user  | Not applicable.                                      |  |  |
| • 14.7 Transport in bulk according to Annex II of<br>Marpol and the IBC Code Not applicable. |  |  |  |
| · Transport/Additional information:  | Not dangerous according to the above specifications. |  |  |
| · UN "Model Regulation":   | Void   |  |  |

# **SECTION 15: Regulatory information**

 $\cdot$  15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture No further relevant information available.

· 15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

# **SECTION 16: Other information**

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

#### · Relevant phrases

- The risk phrases shown below are for those component substances which are listed in section 3 and not for the actual finished formulation.

- Hazards are concentration dependent. Therefore for the actual hazard classification and risk/safety phrases appropriate for the actual finished formulated product refer to section 2.

H302 Harmful if swallowed.

H304 May be fatal if swallowed and enters airways.

H351 Suspected of causing cancer.

H400 Very toxic to aquatic life.

H410 Very toxic to aquatic life with long lasting effects.
