

## Product Information: ASR 26

### Description

ASR 26 is high quality formulated to prevent adhesion and build-up of weld spatter on workpieces and associated equipment, by providing a thin, oily and heat resistant barrier. ASR 26 is free of ozone depleting and harmful chlorinated solvents, silicones and is non-flammable; the product does not affect the quality of the weld and provides excellent stainless steel spatter protection. The product eliminates the need for chiselling, grinding or brushing after welding. Any weld spatter may be easily removed by wiping with a cloth or similar.

### Applications

The product may be applied by brush, spray or automatic system and can be re-applied if required.

### Performance Features

- Effective non-toxic formulation
- Free of chlorinated solvents
- Silicone free
- Non-flammable
- Eliminates further action on the workpiece
- Excellent stainless steel spatter protection

### Typical Data

Characteristic	Unit	Result
Density @ 15.6°C	kg/l	0.900
Kinematic Viscosity @ 40°C	cSt	26.2
Flashpoint (Closed)	°C	>100
Pour Point	°C	-15
