

Product Information: Chain Oil

Description

Smith and Allan Chain Oil is a high quality mineral based lubricant manufactured using only virgin base stocks and high quality additives. The product incorporates a tackiness agent for reduced fling-off and exhibits excellent adhesive properties.

The product also contains friction modifiers and surface active agents to ensure maximum penetration between heavily loaded, fast moving components. Corrosion inhibitors and anti-wear agents are also incorporated to ensure maximum performance and life span of equipment.

Applications

This specially formulated Chain Oil will lubricate and protect the chains and bars of all types of chainsaw.

Performance Features

Suitable for use on petrol or electrical powered chainsaws

Contain highly adhesive tackiness agent for reduced fling-off

Protects against corrosion

High level of anti-wear protection

Extended working life of equipment

Typical Data

Characteristic	Unit	Result
Density @ 15.6°C	kg/m ³	0.875
Kinematic Viscosity @ 40°C	cSt	106.5
Kinematic Viscosity @ 100°C	cSt	12.2
Viscosity Index		105
Flashpoint (Closed)	°C	232
Pour Point	°C	-17
