

Product Information: Geartech EP 140

Description

Geartech EP 140 is a high quality gear lubricant, formulated using high quality, virgin, mineral base stocks which incorporate an advanced additive system. The lubricant displays excellent extreme pressure and anti-wear performance as well as offering outstanding protection against rust and corrosion. Geartech EP 140 is formulated to deliver excellent foam control, is thermally stable and highly resistant to oxidation.

Applications

Geartech EP 140 is recommended for the lubrication hypoid and spiral bevel gear systems and various other automotive and industrial applications, where the original equipment manufacturer recommends a lubricant of this quality, performance level and viscosity.

Performance Features

- Extreme pressure properties
- Excellent anti-wear performance
- Thermally stable
- Resistant to oxidation
- Excellent foam control
- Protection against rust and corrosion

Performance Level

API GL-4

Typical Data

Characteristic	Unit	Result
Density @ 15.6°C	kg/l	0.898
Kinematic Viscosity @ 40°C	cSt	380
Kinematic Viscosity @ 100°C	cSt	27.1
Viscosity Index		96
Flashpoint (Closed)	°C	200
Pour Point	°C	-14
