

Product Information: Pure White Mineral Oil

Description

Pure White Mineral Oil is an extremely pure, food safe lubricant which is crystal clear in appearance, non-toxic, tasteless and odourless. The product displays inherent oxidation stability giving a good shelf life and displays good fluidity even at low temperatures. Its crystal-clear colour helps to minimize the risk of staining and the product is fully approved for use both in and around food preparation / processing areas.

Applications

Pure White Mineral Oil is registered by NSF as been food safe when been in both incidental and direct contact with food, therefore this makes the product an ideal choice for the treatment of wooden chopping boards, food preparation areas, wooden bowls, bread & cheese boards as well as kitchen & dining utensils to protect blades etc. The product may also be utilised as a release agent to prevent food from adhering to surfaces and blades on slicing machines. Due to its high pure, non-toxic, odourless characteristics the product may also be used as a skin lotion, in home reed diffusers, hair clipper blades, internal hinges and in aromatherapy.

Performance Features

- Non-Toxic
- Food Safe (Direct & Indirect Contact)
