

# Product Information: Transfer Case Fluid NV

## Description

Transfer Case Fluid NV is a specially formulated lubricant which incorporates high quality synthetic base stocks and a balanced additive system, to ensure that high levels of anti-wear protection are delivered to chain; sprocket and gear components. The fluid exhibits excellent thermal stability and cold flow characteristics ensuring year round performance and protection.

## Applications

Suitable for use in Jeep vehicles fitted with Quadra-Trac II 4x4 systems and New Venture transfer cases NV245, NV247 & NV249.

## Performance Features

- Excellent anti-wear performance
- Thermally stable
- Long drain periods
- Resistant to oxidation
- Excellent cold flow characteristics

## Performance Levels

- API GL-4
- Chrysler MS-10216

## Typical Data

Characteristic	Unit	Result
Density @ 15.6°C	kg/l	0.853
Kinematic Viscosity @ 40°C	cSt	46.8
Kinematic Viscosity @ 100°C	cSt	10.0
Viscosity Index		208
Flashpoint (Closed)	°C	225
Pour Point	°C	-45
